Slimline Part M

Product Catalogue 2017

SLIMLINE PART M

Deta Slimline Part M accessories are designed to meet the requirements set out within Building Regulations Approved Document M.

Based upon the highly established **Slimline** range, **Slimline Part M** wiring accessories are supplied with grey front plates and white rockers, providing optimum contrast to both locate the accessory and determine its setting.

Slimline Part M offers a comprehensive range of accessories including sockets, switches, connection units and shaver sockets. As well as meeting the general requirements for residential properties, range options including grey data and grey gridplates, providing additional power, telecom, data and audio visual solutions.

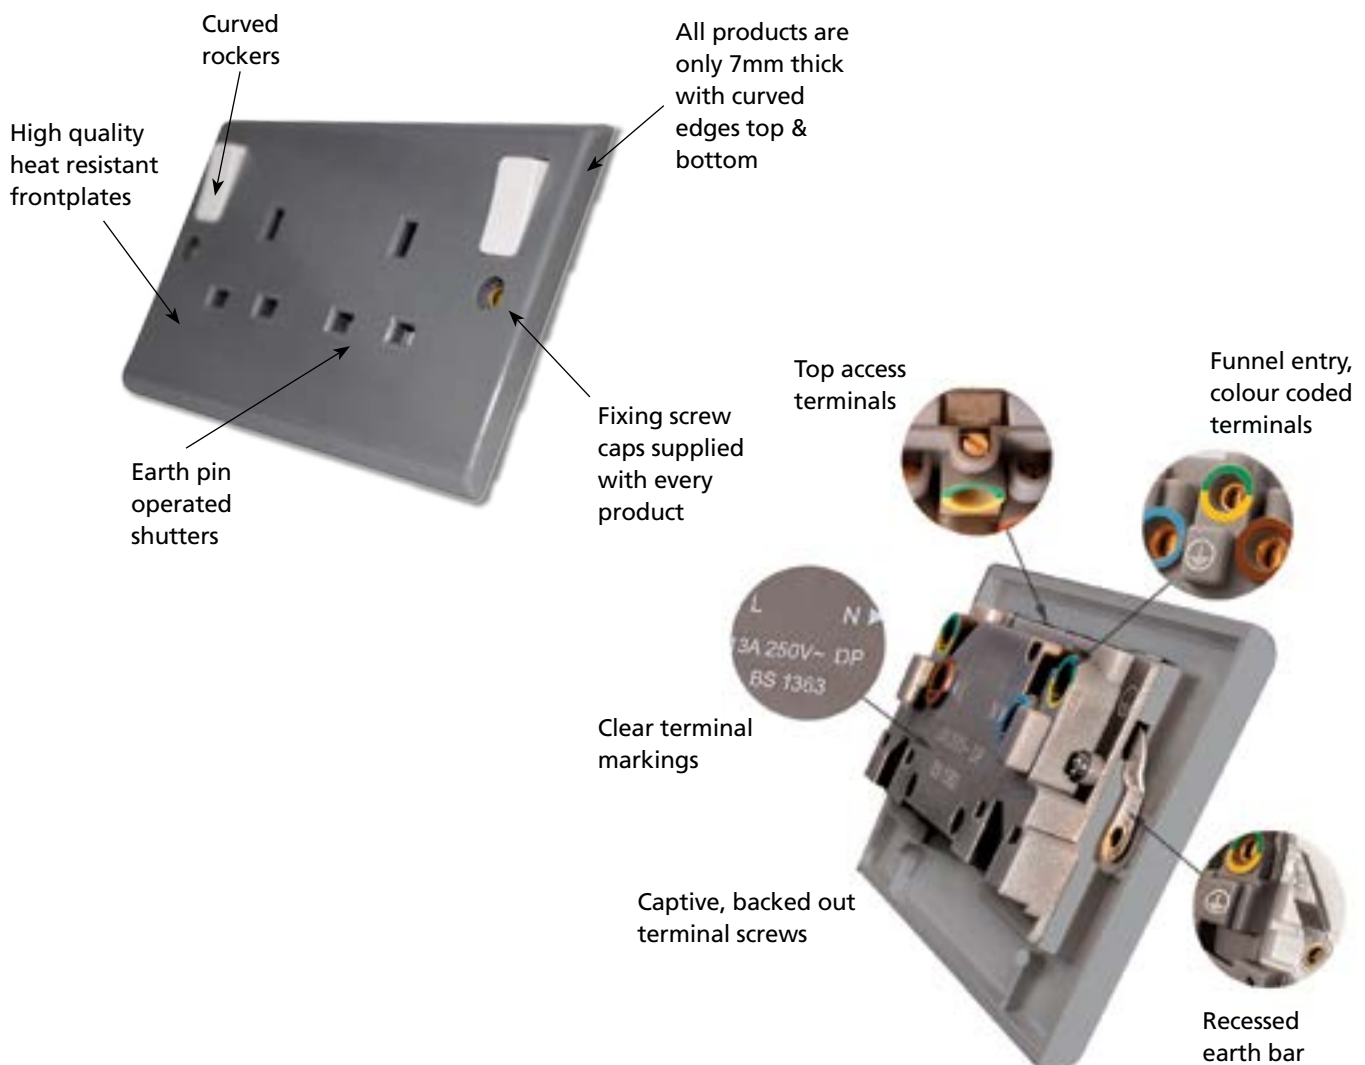

Products in the **Slimline Part M** range are guaranteed for 25 years (2 years for electronic products).

PRODUCT FEATURES

Deta Slimline offers a dedicated range of **Part M** wiring accessories with grey frontplates and white switches, making them easily visible to the visually impaired.

Plate Switches offer the option of a wide rocker switch which can be easily operated by those with limited dexterity. Switch rockers on multi-gang plate switches are separated, preventing inadvertent operation. Socket Outlets offer the option of a two gang switched socket outlet with outboard rockers, preventing inadvertent operation. The range also includes switches with neon indicators, making it easier for the user to determine if the switch is on or off.

Slimline Part M
